

LITERATURVERZEICHNIS (LIST OF PUBLICATIONS)

1. Trebst, A., Bothe, H. Zur Rolle des Phytoflavins im photosynthetischen Elektronentransport, Ber. dtsh. Bot. Ges. 79, 44-47 (1966)
2. Bothe, H. Ferredoxin und Phytoflavin in photosynthetischen Reaktionen einer Präparation aus der Blaualge *Anacystis nidulans*, Thesis, Göttingen (1968)
3. Evans, M.C.W., Hall, D.O., Bothe, H., Whatley, F.R. The Stoichiometry of Electron Transfer by Bacterial and Plant Ferredoxins, Biochem. J. 110, 485-489 (1968)
4. Bothe, H. The role of phytoflavin in photosynthetic reactions Progress in Photosynthesis Research, ed. and published by H. Metzner, Vol. III, 1483-1491 (1969)
5. Bothe, H. Ferredoxin als Kofaktor der cyclischen Photophosphorylierung in einem zellfreien System aus der Blaualge *Anacystis nidulans*, Z. Naturforschung 24b, 1574-1582 (1969)
6. Bothe, H., Berzborn, R. Wirkung von Antikörpern gegen die Ferredoxin-NADP⁺-Reduktase aus Spinat auf photosynthetischen Reaktionen in einem zellfreien System aus der Blaualge *Anacystis nidulans*, Z. Naturforschung 25b, 529-543 (1970)
7. Bothe, H. Photosynthetische Stickstofffixierung mit einem zellfreien Extrakt aus der Blaualge *Anabaena cylindrica*, Ber. Dtsch. Bot.Ges. Bd. 83, Heft 9/10, S. 421-432 (1970)
8. Bothe, H. Ferredoxin als Kofaktor der Stickstofffixierung mit zellfreien Extrakten aus der Blaualge *Anabaena cylindrica*, First European Biophysics Congress, Verlag der Wiener Medizinischen Akademie Vol. IV, 109-113 (1971)
9. Bothe, H., Hemmerich, P., Sund, H. Some properties of phytoflavin isolated from the blue-green alga *Anacystis nidulans* Flavins and Flavoproteins, ed by H. Kamin, University Park Press, Baltimore, 211-226 (1971)
10. Van Lin, B., Bothe, H. Flavodoxin from *Azotobacter vinelandii*, Arch. Microbiol. 82, 155-172 (1972)
11. Bothe, H., Loos, E. Effect of far red light and inhibitors on nitrogen fixation and photosynthesis in the blue-green alga *Anabaena cylindrica*, Arch. Microbiol. 86, 241-254 (1972)
12. Bothe, H., Falkenberg, B. The reduction of flavodoxin from *Azotobacter vinelandii*, by pyruvate Z. Naturforschung 27b, 1090-1094 (1972)
13. Bothe, H. Relationship between nitrogen fixation and photosynthesis in blue-green algae, Proceedings of the IInd International Congress on Photosynthesis Research, ed. by G. Forti, M. Avron and A. Melandri; Dr. W. Junk, N.V. Publisher, The Hague, Vol.III, 2169-2178 (1972)

14. Bothe, H., Falkenberg, B. Demonstration and possible role of a ferredoxin dependent pyruvate decarboxylation in the blue-green alga *Anabaena cylindrica*, Plant Science Letters 1, 151-156 (1973)
15. Bothe, H., Falkenberg, B., Nolteernsting, U. Properties and function of the pyruvate: ferredoxin oxidoreductase from the blue-green alga *Anabaena cylindrica*, Arch. Microbiol. 96, 291-304 (1974)
16. Bothe, H., Nolteernsting, U. Pyruvate dehydrogenase complex, pyruvate: ferredoxin oxidoreductase and lipoic acid content in microorganisms, Arch. Microbiol. 102, 53-57 (1975)
17. Bothe, H., Yates, M.G. The electron transport to nitrogenase in *Mycobacterium flavum*, Arch. Microbiol. 107, 25-31 (1976)
18. Bothe, H. Die biologische Stickstofffixierung, Naturwissenschaftl. Rundschau 29, 316-324 (1976)
19. Bothe, H. Salzresistenz bei Pflanzen, Biologie in unserer Zeit 6, 2-9 (1976)
20. Bothe, H., Eisbrenner, G. Effect of 7-azatryptophan on nitrogen fixation and heterocyst formatin in the blue-green alga *Anabaena cylindrica*, Biochim. Physiol. Pflanz. 171, 323-332 (1977)
21. Bothe, H., Tennigkeit, J., Eisbrenner, G., Yates, M.G. The hydrogenase-nitrogenase relationship in the blue-green alga *Anabaena cylindrica*, Planta 133, 237-242 (1977)
22. Bothe, H., Tennigkeit, J., Eisbrenner, G. The utilization of molecular hydrogen by the blue-green alga *Anabaena cylindrica*, Arch. Microbiol. 114, 43-49 (1977)
23. Bothe, H. Flavodoxin Encyclopedia of Plant Physiol, New Series, Vol. 5 I, 217-221 (1977)
24. Yates, M.G., O'Donnell, M.J., Lowe, D.J., Bothe, H. Ferredoxins from nitrogen-fixing bacteria: Physical and chemical characterization of two ferredoxins from *Mycobacterium flavum* 301, Eur. J. Biochem. 85, 291-299 (1978)
25. Bothe, H., Distler, E., Eisbrenner, G. Hydrogen Metabolism in blue-green algae, Biochimie 60, 277-289 (1978)
