## P.BODMER XXV: MENANDER SAMIA

## TEXTUAL NOTES

Some years ago I had the opportunity to read for a week the Bodmer Papyrus XXV (Menander) at the Fondation Bodmer<sup>1</sup> in Geneva, that is the section containing the *Samia*. Before the publication of my edition and commentary of the *Samia*, which I cannot tell yet when exactly will appear, I thought that the publication of some results of my work might, perhaps, be of some help to scholars working now on the same text. I thought it helpful to include also in my notes here some of the supplements proposed already by others, which, I think, are to be preferred (my reasons are given in my commentary).
